The wind was so fiere that the rain cut like a knife. By 3 o'clock the waters of the bay and gulf met, and by dark the entire city was sublight plant and the gas plants left the city in darkness. To go upon the streets was to court death. The wind was then at oyclonic velocity; roofs, cisterns, portions of buildings, telegraph poess and walls were failing, crashing of the buildings were territying in the extreme. The wind and waters rose steadily from dark until 1:45 o'clock Sunday morning. During all this time the people of Galveston were like rats in a trap. A Night of Agony.

Such a night of agony has seldom been equaled. Without apparent reason, the waters suddenly began to a subside at 1:45 a.m. - Within 20 minutes they had gone down two feet, and before daylight the streets were practically freed of the flood waters. In the meantime the wind had veered to very few, if any, buildings, escaped injury. There is hardly a habitable dry house in the city. When the people who had escaped death went out at daylight to view the work of the stempest and the floods, they saw the most horrible sight imaginable. In the three blocks from Avenue N to Avenue P, in Tremont street, I saw eight bodies. Four corpess were in one yard. GEN. CHAFFEE IN FAVOR OF THE MOVE

No Confirmation of Report That Ger many and Great Britain Have Agreed to Remain.

Washington, Sept. 11.—The developments of the day in the Chinese situation still point to a speedy withdrawal of the United States troops from China. Gen. Chaffee has added the weight of his opinion to that already entertained by many officials here. It probably is significant that the general's statement on this point was given publicity by the administration.

was given publicity by the auminista-tion. No confirmations are at hand here of the report that Great Britain and Germany have joined in an agreement to remain together in Peking, regard-less of the attitude of the other pow-res. Should this be true, the fact doubtless would hasten the rearward movement of the American troops, for there is a firm determination to avoid becoming involved in any clash between the powers, such as might reasonably be expected to follow the execution of this reported British-German programme.

execution of this reported British-German programme.

If there have been futher responses to the Russian note relative to evacu-ation, their purpose can not be ascer-tained. This delay no longer inter-feres with the execution of the Amer-ican polley. The state department has a reasonably accurate understand-ing of the attitude of even those pow-sponses to the Russian note, so that the mere written record of their views is not of importance.
